BACKGROUND

The University of Burdwan is organizing the “Frontiers in Biological and Medical Sciences” during **March 08–10, 2018**. The purpose of this conference is to provide a platform for academicians, researchers, scientists, clinicians, and students in the country to

- Exchange contemporary ideas among themselves with all around the world
- Confer knowledge and research in genetics and genomics, proteomics, neurobiology, cell and developmental biology, biochemistry and molecular biology, medical biology, microbiology, immunology, and plane sciences; and
- Publish selected original scientific research in a post-conference edited volume

ABOUT THE UNIVERSITY OF BURDWAN

The University of Burdwan is a place for empowerment of the youth, for the fusion and refinement of ideas coming from different directions as also those emanating from interactive minds. The University offers an opportunity to invent and reinvent the thoughtful minds, for widening the horizon much beyond their immediate confines. The University of Burdwan is a place to help disseminate the wisdom, ancient and modern; as also the art of critiquing them, among generations of students and teacher for betterment of the human social existence, both local and global.
