## Objective

Language is a medium of communication. Santal people have been communicating through the Santali Language since ancient times. Numerous folk songs and story had created in this language. So, the language is the way of exercising the knowledge. The Processes of word and sentence formation in Santali language is very complicated, that is it's has peculiar characteristics. Mainly the webinar focuses on origin and formation of Santali words. Derivation is the process of creating a new word by adding a prefix or a suffix or different roots which help expanding the lexicon of the language. In Santali, much favor of such processes for expansion in lexicon. Santali language is employing various morphological processes in derivation. These processes will be discussed and some cases of linguistic innovation are to be explained in detail in this webinar.
