

SHODHSUDDHI

ShodhShuddhi is the national-level initiative for providing a **Plagiarism Detection Software (PDS)** service to Indian higher education institutions through the **INFLIBNET** Centre (under the Ministry of Education). Introduced for universities and other identified institutions from **1 September 2019**, ShodhShuddhi aims to strengthen **research quality, originality, and academic integrity** by enabling systematic similarity checking of scholarly submissions.

Under ShodhShuddhi, INFLIBNET offers a **web-based similarity checking platform** where authorized users from member institutions can upload documents and generate similarity reports. In recent years, INFLIBNET moved the service to **DrillBit-Extreme**: it has been provided under ShodhShuddhi **from 1 October 2023**, with full-service commencement noted from **1 November 2023** (following a trial phase).

Alignment with UGC's academic integrity framework

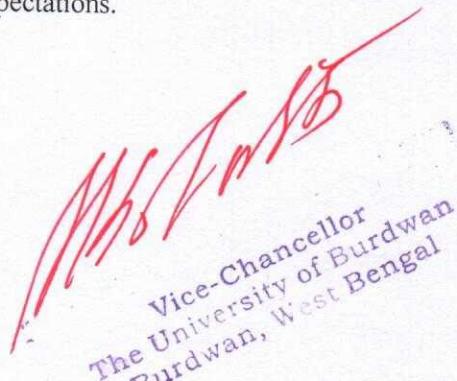

Most Indian universities operationalize similarity checking in line with the **UGC (Promotion of Academic Integrity and Prevention of Plagiarism in Higher Education Institutions) Regulations, 2018**, which emphasize institutional mechanisms to prevent plagiarism and promote responsible research conduct. A commonly referenced permissible similarity benchmark used in institutional adoption discussions is **10%** (subject to institutional rules and interpretation of exclusions such as references/quotes, as per local policy)

At **The University of Burdwan**, ShodhShuddhi's PDS role fits directly into the university's broader academic quality ecosystem—particularly for **thesis submission workflows**, department-level scrutiny, and ensuring compliance with research integrity expectations.

In practice, the **typical Burdwan University workflow** using ShodhShuddhi (PDS) can be summarized as:

1. **Pre-submission similarity checking:** Draft theses/dissertations or departmental submissions are uploaded to generate a similarity report and identify overlaps needing revision (quotation handling, citations, paraphrasing, and original contribution strengthening). shodhshuddhi.inflibnet.ac.in
2. **Interpretation and corrective action:** Similarity is reviewed with attention to legitimate overlaps (references, methodology templates, cited quotations) versus problematic copying—helping scholars improve writing ethics and quality.
3. **Certification for academic processes:** Where required, a **similarity/plagiarism certificate** are provided from the platform as supporting documentation for submission/record.
4. **Capacity building:** Participation in INFLIBNET training/awareness opportunities supports smoother adoption and consistent interpretation across departments.

In short: ShodhShuddhi (INFLIBNET's PDS service) functions as Burdwan University's structured, institution-supported mechanism for similarity checking—helping ensure that student and faculty research outputs reflect originality, responsible citation, and adherence to academic integrity expectations.
