Acknowledgement:

The social Outreach Programme is an effort for "Creating Public Awareness to the students about Biodiversity, Importance of Taxonomy and about the Family Ochnaceae I at Paligram B.S. Vidyamandir, Paligram, Purba Bardhaman, West Bengal".

During my work, I am also thankful to the students of class V, VIII, X of Krishnapur High School (H.S.) for their extreme cooperation to complete my social outreach programme. This social outreach programme would not be possible without the extensive help of the "Taxonomy of Angiosperms and Biosystematics" section of "The Department of Botany" under The University of Burdwan.

I am most grateful to Dr.Saikat Naskar, Associate Professor, Department of Botany, The University of Burdwan, for his guidance, continuous enthusiasm, valuable discussion and advice.

I am also grateful to Dr.Asok Ghosh, associate Professor, Department Of Botany, The University of Burdwan for his guidance.

I am thankful to my Parents and brother for their support, understanding and encouragement during my work.

I am also grateful to , Head Master of ~~Paligram~~ Krishnapur High School .

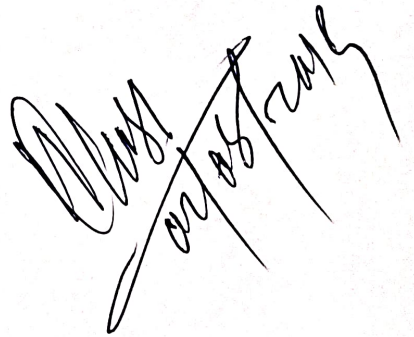

I am also very thankful to my friends for their heartiest cooperation.

Rajit Jana

Conclusion-

By doing the Social outreach programme and interacting with the students it is concluded that a vast proportion of people are unaware about the various uses of plants and their medicinal properties. After the discussion they become happy to know about these above aspects.
