Borehat, Dist.-Burdwan

# ACKNOWLEDGEMENT

For the successful completion of my social outreach project, I would like to thank a number of people. First of all I would like to extend my heartfelt gratitude towards my esteemed supervisors Dr. Asok ghosh and Dr. Saikat naskar of The University of Burdwan for their valuable advices, suggestions, guidance and expert supervision all throughout my project work. I am also thankful to Saswati Chattopadhyay of Bharati balika bidyalaya, Burdwan. Also I would like to extend my gratefulness towards my parents Mr. Ganesh Chandra Halder and Mrs. Chandana Halder for their constant motivation and encouragement. Last but not the least, I would like to thank my friends as they stood by me during the survey process.

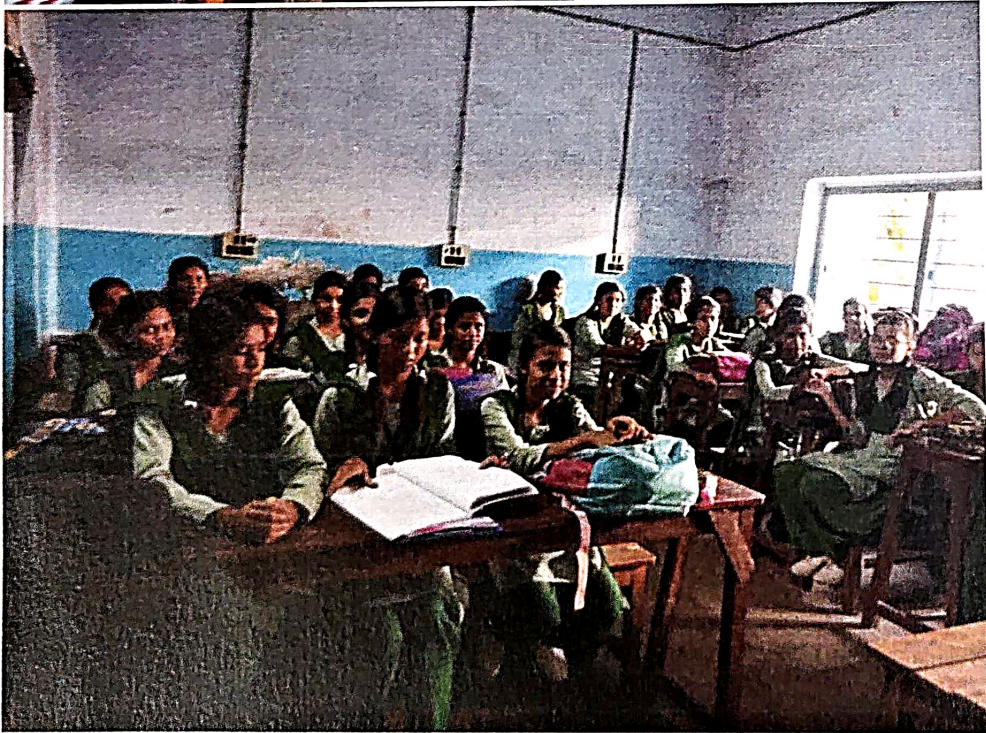

*Samanwita Halder*

## **DISCUSSION:**

Most of them have no idea and knowledge of the importance of some common plants they observe everyday. After the discussion they know the uses, economic importance of the family malvaceae. Before the discussion they have no interest about knowing or enquiring of their own about importance of common plants but after the discussion they become interested in this and eager to know more about how they can use the malvaceae family plants for their purpose.

**CONCLUSION :**

By doing the social outreach programme and interacting with the students it is concluded that a vast proportion of people are unaware about the various uses of the common plants included in the malvaceae family. By this interacting class it was observed that the students became interested knowing the importances of the plants and also became eager to know further about this family.
